AUTHOR INDEX

ALDRICH, M. L., antimicrobial treatment of air chilled broiler carcasses – acidified sodium chlorite antimicrobial treatment of air chilled broiler carcasses, 102

ALVARADO, C. Z., HACCP plan assessment of Virginia meat and poultry processing plants, 858

ANTLOGA, KATHY, vapor phase hydrogen peroxide decontamination of food contact surfaces, 868

APPLEBAUM, RHONA, thoughts on today's food safety…food security ≠ food safety, 720

ARAMOUNI, FADI, development and evaluation of an advanced HACCP workshop for meat processors, 976

ARRITT, FLETCHER M., evaluation of food processor environmental sampling data and sampling plans, 333

BACON, R. T., application of a commercial steam vacuum unit to reduce inoculated *Salmonella* on chilled fresh beef adipose tissue, 184; commercial application of lactic acid to reduce bacterial populations on chilled beef carcasses, subprimal cuts and table surfaces during fabrication, 674

BAHNSON, PETER B., ideas and practices related to preharvest food safety for large swine producers in Illinois, 970

BARBER, DAVID A., ideas and practices related to preharvest food safety for large swine producers in Illinois, 970

BARTLETT, P., milk production and mastitis on midwestern organic dairy farms, 178

BELK, K. E., application of a commercial steam vacuum unit to reduce inoculated *Salmonella* on chilled fresh beef adipose tissue, 184; commercial application of lactic acid to reduce bacterial populations on chilled beef carcasses, subprimal cuts and table surfaces during fabrication, 674; consumer behavior regarding time lapse between store-purchase and subsequent home-storage of fresh beef retail cuts, 740

BELLINGER, G. R., consumer behavior regarding time lapse between store-purchase and subsequent home-storage of fresh beef retail cuts, 740

BERRY, STEVE, telecommuting for environmental health specialists planning, implementing and managing a program: the Plano, Texas experience, 14

BOYLE, LIZ, development and evaluation of an advanced HACCP workshop for meat processors, 976

BRASHEARS, MINDY, development and evaluation of an advanced HACCP workshop for meat processors, 976; validation and optimization of chilling and holding temperature parameters as critical control points in raw meat and poultry processing establishments, 246

BRUHN, CHRISTINE M., refining consumer safe handling educational materials through focus groups, 539

BUEGE, D. R., consumer behavior regarding time lapse between store-purchase and subsequent home-storage of fresh beef retail cuts, 740

BURSON, DENNIS, development and evaluation of an advanced HACCP workshop for meat processors, 976; validation and optimization of chilling and holding temperature parameters as critical control points in raw meat and poultry processing establishments, 246

CAMPBELL, S., control of product temperatures during the distribution of retail ready beef to stores and vacuum packaged beef to restaurants, 422

CHU, ANNE C., modified atmosphere packaging of cooked rice and its standard plate count, 109

CUMMINS, ALECIA, a survey of apple cider production practices and microbial loads in cider in the state of Iowa, 745

DeFRANCISCI, LEONARD J., sanitary design of equipment: active and passive measures, 252

DORMEDY, E. S., validation and optimization of chilling and holding temperature parameters as critical control points in raw meat and poultry processing establishments, 246

DOWNES, F. P., milk production and mastitis on midwestern organic dairy farms, 178

DRAUGHON, F. ANN, thoughts on today's food safety… food security and bioterrorism, 312

EIFERT, JOSEPH D., chemistry of chlorine sanitizers in food processing, 534; evaluation of food processor environmental sampling data and sampling plans, 333

EIGEL, W. N., HACCP plan assessment of Virginia meat and poultry processing plants, 858

ERSKINE, R., milk production and mastitis on midwestern organic dairy farms, 178

EWOLDT, KOLE A., potential use of staphylococci as indicators of post-heating contamination of hot-smoked fish, 526; potential use of staphylococci as indicators of hygiene during manufacture and ripening of hard Italian-type cheeses, 874

FEAGAN, WILBUR S., an outline of the history of milk history, 429

FERNÁNDEZ, PABLO S., exploring new mathematical approaches to microbiological food safety evaluation: an approach to more efficient risk assessment implementation, 18

GILL, C. O., control of product temperatures during the distribution of retail ready beef to stores and vacuum packaged beef to restaurants, 422

GLATZ, BONITA, a survey of apple cider production practices and microbial loads in cider in the state of Iowa, 745

GOMBAS, DAVID E., adequacy of the temperature recommended by USDA-FSIS for re-cooking poultry meat, 734

GRIFFITH, C., factors influencing recovery of microorganisms from surfaces by use of traditional hygiene swabbing, 410

GRIGNOL, GEORGE, vapor phase hydrogen peroxide decontamination of food contact surfaces, 868

GUARD, CHUCK L., feeding practices associated with the presence of *Listeria monocytogenes*: a case-control study in New York state dairies, 326

HARWOOD, JAN, refining consumer safe handling educational materials through focus groups, 539

HASSAN, LATIFFAH, feeding practices associated with the presence of *Listeria monocytogenes*: a case-control study in New York state dairies, 326

HENNING, W. P., consumer behavior regarding time lapse between store-purchase and subsequent home-storage of fresh beef retail cuts, 740

HOLLEY, R. A., control of product temperatures during the distribution of retail ready beef to stores and vacuum packaged beef to restaurants, 422

HOUDE, A., control of product temperatures during the distribution of retail ready beef to stores and vacuum packaged beef to restaurants, 422

INGHAM, STEVEN C., potential use of staphylococci as indicators of post-heating contamination of hot smoked fish, 526; potential use of staphylococci as indicators of hygiene during manufacture and ripening of hard Italian-type cheeses, 874

JOHNSON, ALICE, thoughts on today's food safety… food security ≠ food safety, 720

JONES, T., control of product temperatures during the distribution of retail ready beef to stores and vacuum packaged beef to restaurants, 422

KAIN, M. L., consumer behavior regarding time lapse between store-purchase and subsequent home-storage of fresh beef retail cuts, 740

KANEENE, J., milk production and mastitis on midwestern organic dairy farms, 178

KEMP, G. KERE, antimicrobial treatment of air chilled broiler carcasses – acidified sodium chlorite antimicrobial treatment of air chilled broiler carcasses, 102; reduction of *Campylobacter* contamination on broiler carcasses using acidified sodium chlorite, 599

KEARNEY, L., the sink environment as a source of microbial contamination in the domestic kitchen, 658

KLENK, MARCIEL, refining consumer safe handling educational materials through focus groups, 539

KNIEL, K. E., internalization of *Escherichia coli* in apples under natural conditions, 667

LeBLANC, D. I., control of product temperatures during the distribution of retail ready beef to stores and vacuum packaged beef to restaurants, 422

LI-COHEN, AMY E., refining consumer safe handling educational materials through focus groups, 539

LUEDTKE, A. N., a review of North American apple cider-associated *E. coli* O157:H7 outbreaks, media coverage and a comparative analysis of Ontario apple cider producers information sources and production practices, 590

MANN, JASON, development and evaluation of an advanced HACCP workshop for meat processors, 976; validation and optimization of chilling and holding temperature parameters as critical control points in raw meat and poultry processing establishments, 246

MARINI, R., internalization of *Escherichia coli* in apples under natural conditions, 667

MARRIOTT, N. G., HACCP plan assessment of Virginia meat and poultry processing plants, 858

MARTÍNEZ, ANTONIO, exploring new mathematical approaches to microbiological food safety evaluation: an approach to more efficient risk assessment implementation, 18

MCDONNELL, GERALD, vapor phase hydrogen peroxide decontamination of food contact surfaces, 868

MCGINNIS, J. C., control of product temperatures during the distribution of retail ready beef to stores and vacuum packaged beef to restaurants, 422

MCKNIGHT, SUSAN, thoughts on today's food safety: issues on water quality and safety, 512

MICHALAK, MICHELLE M., ideas and practices related to preharvest food safety for large swine producers in Illinois, 970

MILLER, GAY Y., ideas and practices related to preharvest food safety for large swine producers in Illinois, 970

MILLER, TOMEJI, telecommuting for environmental health specialists planning, implementing and managing a program: the Plano, Texas experience, 14

MOHAMMED, HUSSNI O., feeding practices associated with the presence of *Listeria monocytogenes*: a case-control study in New York state dairies, 326

MOORE, G., factors influencing recovery of microorganisms from surfaces by use of traditional hygiene swabbing, 410

MORGAN, J. B., consumer behavior regarding time lapse between store-purchase and subsequent home-storage of fresh beef retail cuts, 740

MORIARTY, M., the sink environment as a source of microbial contamination in the domestic kitchen, 658

MURPHY, MARK, development and evaluation of an advanced HACCP workshop for meat processors, 976

NACK, THOMAS J., potential use of staphylococci as indicators of post-heating contamination of hot-smoked fish, 526

NICHOLSON, YVONNE, refining consumer safe handling educational materials through focus groups, 539

OYARZABAL, OMAR A., adequacy of the temperature recommended by USDA-FSIS for re-cooking poultry meat, 734

PALOP, ALFREDO, exploring new mathematical approaches to microbiological food safety evaluation: an approach to more efficient risk assessment implementation, 18

PERIAGO, PAULA M., exploring new mathematical approaches to microbiological food safety evaluation: an approach to more efficient risk assessment implementation, 18

POWELL, D. A., a review of North American apple cider-associated *E. coli* O157:H7 outbreaks, media coverage and a comparative analysis of Ontario apple cider producers information sources and production practices, 590

QUINN, B. P., HACCP plan assessment of Virginia meat and poultry processing plants, 858

RAHN, K., control of product temperatures during the distribution of retail ready beef to stores and vacuum packaged beef to restaurants, 422

REAGAN, J. O., consumer behavior regarding time lapse between store-purchase and subsequent home-storage of fresh beef retail cuts, 740

REIBOLDT, WENDY, modified atmosphere packaging of cooked rice and its standard plate count, 109

REITMEIER, CHERYLL, a survey of apple cider production practices and microbial loads in cider in the state of Iowa, 745

RINGKOB, T. P., consumer behavior regarding time lapse between store-purchase and subsequent home-storage of fresh beef retail cuts, 740

ROBINSON-DUNN, B., milk production and mastitis on Midwestern organic dairy farms, 178

RUEGG, P., milk production and mastitis on midwestern organic dairy farms, 178

SANDERS, MARY ELLEN, thoughts on today's food safety – the role of probiotics in food safety, 232

SANGLAY, GABRIEL C., chemistry of chlorine sanitizers in food processing, 534

SATO, K., milk production and mastitis on midwestern organic dairy farms, 178

SCANGA, J. A., consumer behavior regarding time lapse between store-purchase and subsequent home-storage of fresh beef retail cuts, 740

SCHNEIDER, K. R., antimicrobial treatment of air chilled broiler carcasses – acidified sodium chlorite antimicrobial treatment of air chilled broiler carcasses, 102; reduction of *Campylobacter* contamination on broiler carcasses using acidified sodium chlorite, 599

SCOTT, JENNY, adequacy of the temperature recommended by USDA-FSIS for re-cooking poultry meat, 734; thoughts on today's food safety…food security ≠ food safety, 720

SEEMAN, B. K., internalization of *Escherichia coli* in apples under natural conditions, 667

SHEU, TeY., modified atmosphere packaging of cooked rice and its standard plate count, 109

SMITH, G. C., application of a commercial steam vacuum unit to reduce inoculated *Salmonella* on chilled fresh beef adipose tissue, 184; commercial application of lactic acid to reduce bacterial populations on chilled beef carcasses, subprimal cuts and table surfaces during fabrication, 674; consumer behavior regarding time lapse between store-purchase and subsequent home-storage of fresh beef retail cuts, 740

SOFOS, J. N., application of a commercial steam vacuum unit to reduce inoculated *Salmonella* on chilled fresh beef adipose tissue, 184; commercial application of lactic acid to reduce bacterial populations on chilled beef carcasses, subprimal cuts and table surfaces during fabrication, 674; consumer behavior regarding time lapse between store-purchase and subsequent home-storage of fresh beef retail cuts, 740

SUMNER, S. S., internalization of *Escherichia coli* in apples under natural conditions, 667

TIERNEY, J., the sink environment as a source of microbial contamination in the domestic kitchen, 658

TOMA, RAMSES B., modified atmosphere packaging of cooked rice and its standard plate count, 109

WANG, H., HACCP plan assessment of virginia meat and poultry processing plants, 858

WILSON, LESTER, a survey of apple cider production practices and microbial loads in cider in the state of Iowa, 745
